Ravine Protection By-law

If your property is located within or partially within a Ravine Protection Area, you are required to apply to Urban Forestry Services of the City of Toronto's Parks, Forestry & Recreation Division for a permit when doing any work that may injure or destroy a tree, or involves placing or dumping fill or refuse, or altering the existing grade of land.

Private Tree By-law

Trees on private property having a diameter of 30 cm or greater are protected. It is unlawful to injure or destroy such trees without first obtaining a permit from Urban Forestry Services of the City of Toronto's Parks, Forestry & Recreation Division to do so.

City Owned Trees

All trees situated on City owned property, including City road allowance and City owned parkland, are protected by City of Toronto by-laws. City owned trees are protected by City of Toronto's "Tree Protection Policy and Specifications for Construction Near Trees". Call 416-338-TREE or visit www.toronto.ca/trees

It is recommended that tree(s) location, species, diameter and condition are identified on plans. Plans should also identify which trees will be injured or removed. Submission of an arborist report or tree protection plan is also recommended to describe potential tree impacts. Failing to identify tree(s) may result in delays, failure to issue or revocation of a building permit despite Committee of Adjustment approval.
